

Science Lab

GHG Harparkash College of Education for Women has an important role of Science Lab in the study of students of Science Subjects. There are Models, Charts and apparatus of Science related to Biology, Physics and Chemistry. There are Clay Model, Microscope, Telescope, Beaker, Test tube, pendulum, Magnets etc. All these apparatus are used in teaching practice and issued to students by their need. There are many Chemicals also which are used by students in Practical Examinations only.
